IAN PEKUNSAL

FRONT-END WEB DEVELOPER

📞 647-847-8487   ✉ ian@pknsl.com   🌐 https://pknsl.com

ABOUT ME

I am a web developer at The Portal Connector, a division of Sylogist Ltd.
My expertise is front-end development, and my passion is integrating APIs with a user-friendly UI/UX.
Meanwhile, I have an in-depth understanding of back-end development practices and methodologies, thus enabling me to work on both ends of a project in order to assist my team and balance the workload.

EXPERIENCE

As a software developer at Sylogist's "The Portal Connector" team, I am responsible for integrating Microsoft Dynamics CRM with a CMS system. My duties include developing the front-end according to wireframes and user stories, as well as applying performance fixes to reduce loading times and decrease Azure operating costs.

**Sylogist
Toronto, ON**
May 2022 - Present

As a full-time student at Centennial College and part-time freelance software developer for Destinade Travel Tech Solutions Limited, I developed and maintained travel management software. My responsibilities included implementing new features, testing and debugging the software, and providing technical support to customers. I gained valuable experience in software development, project management, and customer service, and contributed to the growth of the company.

**Destinade
North York, ON**
Jun 2020 - May 2022

During my time at Gri Creative as a junior developer, I applied custom layouts to existing portals and fixed bugs. I worked closely with senior developers to understand requirements and design specifications, using my HTML, CSS, and JavaScript skills to create visually appealing and functional layouts. I participated in code reviews and collaborated with colleagues to ensure the quality and consistency of the codebase.

**Gri Creative
Kadikoy, Istanbul**
Jun 2018 - May 2020
